AboutMe

From the moment I assigned click event to the button and produse "clicked" on console in a simple HTML page that hooked me and the process of learning and problem solving on web development(coding) started from there. Earned a **certificate in Full Stack Web Development** from the *George Washington University Washington, DC(2021)*. Believe in problem solving, dedicated to learn, design and develop interactive web applications. Here are some projects that I've completed that showcase my skills and my knowledge in web development.

Experience

The JAMM:(https://pacific-river-65796.herokuapp.com/)
The Jamm ia an full stack react app powered by MomngoDb, Node, Express and React. This app allows user to create Journal and make entries to that journal and allows to delete individual entries or all journal. The Jamm also gives user the daily motivational quote, allows them to save and delete also. My responsibilites were **(backend-database, front-end routes setup and DOM manipulation).** Code (https://github.com/ghimirear/the-jamm)

Burger App:(https://boiling-wave-86974.herokuapp.com/)

Weather App:(https://ghimirear.github.io/weather-dashboard/)
Weather App is powered by open weather api and populate DOM with real time weather data. This app allows user to search the weather of the city by its name and saves in local storage for future use. Code (https://github.com/ghimirear/weather-dashboard)

Employee Management System:

Burger app is a full-stack app powered by MySql, Node, Express and Express-Handlebars as a templating engine to conditional rendering of the data to the DOM. The code is fully modulize according with the ORM pattern. Code (https://github.com/ghimirear/burgere)

(https://github.com/ghimirear/employee-management-system) Employee management system is truely command line program allows user to add, delete and update employee, department, role/s, manager, budget, salary and to view the employee by manager. This app is powered by Node, Express, MySql, ConsoleTable and Inquirer. This app is not deployed but still can see the code.

Education

The George Washington University	**Full stack web development (certificate)**	2020-2021	Washington, DC
Howard Community College	Fundamentals of English and public speaking	2018-2019	Columbia, MD
Chitwan Medical College	Bachelor of Pharmacy	2014-2019	Chitwan, Nepal
